

MS in Library and Information Science (MS LIS)

Syllabus (2026)

Paper I (Forenoon): Test Code: PLA

There will be 30 objective type questions. These are given to test quantitative skill (at 10 +2 level) and reasoning skills (at the undergraduate level), knowledge of mathematics, ability to read and understand graphs & statistical tables (preferably 10+2 level).

PLA test consists of two parts: *Part I: Test of Quantitative Ability* and *Part II: Test of Reasoning Ability*. The candidates are expected to answer all 30 questions.

Paper II (Afternoon): Test Code: PLB

This paper will test critical thinking, language proficiency, and writing skills. The broad pattern of the question paper will be as below:

Part I: Comprehension Ability Test. The candidate is expected to go through the text and understand its content, to answer the questions in sentences.

Part II: Test of English Language Proficiency. Questions are given to test the knowledge of antonyms, analogy, synonyms, and elementary English grammar.

Part III: Test of writing skills. The candidate is expected to write essay on given topics.
